Aurelia In Action - CTSNet  
Aurelia is a frontend JavaScript framework focused on building rich web applications. Like other frameworks, such as Angular and Ember.js, Aurelia is a single-page application (SPA) development framework. This means that Aurelia applications deliver the entire user experience (UX) on one page without requiring the page to be reloaded during use.

Aurelia R. Paquette. I believe that travel is transformative and weekend trips essential; that impromptu cheese boards are the best form of entertaining; that you can never have too many flowers or too much tea; and that, though the world is full of dazzling places, with love and good design, home can and should be your favorite destination.

Helicopter Ride Over New York City | Aurelia Paquette  
In this episode, the panel talks with Sean Hunter who is a software developer, speaker, rock climber, and author of "Aurelia in Action" published by Manning Publications! Today, the panelists and Sean talk about Aurelia and other frameworks.
