A personal memoir, as well as a political polemic, Bone Black carries the additional appeal of providing a poignant and lyrical insight into the author's own life.

This Spot of Ground: Spiritual Baptists in Toronto represents the first detailed exploration of an African-Caribbean religion in the context of contemporary migration to Canada. Toronto is home to Canada's largest black population, a significant portion of which comprises Caribbean migrants and their descendants. This book shows how the development of the Spiritual Baptist religion in Canada has been shaped by the immigration experiences of church members, the large majority of whom are women, and it examines the ways in which religious experiences have mediated the members' experiences of migration and everyday life in Canada. This Spot of Ground is based

Online Library Bone Black Memories Of Hood Bell Hooks

on a critical ethnography, with in-depth interviews and participant observations of church services and other ritual activities, including baptism and pilgrimage and field research in Trinidad that explores the transnational linkages with Spiritual Baptists there. The book addresses theoretical and methodological issues also, including the development of perspectives suitable for examining diasporic African religious and cultural expressions characterized by transnational migration, an emphasis on oral tradition as the repository of cultural history, and linguistic and cultural hybridity. This Spot of Ground contributes new information to the study of Caribbean religion and culture in the diaspora, providing a detailed examination of the significance of religion in the immigration process and identity and community formations of Caribbean people in Canada.

Americans want it both ways. They are committed to cultural diversity, yet demand an endless variety of cheap consumer goods from a global system that destroys distinct ways of life. In this groundbreaking work, David Steigerwald argues that Americans have papered over this paradox by embracing the rhetoric of diversity and multiculturalism, which hides the extent to which they have accepted homogenized ways of working and living.

The reflexive turn in qualitative research has transformed the process of doing life history research. No longer are research subjects examined through the lens of the all-knowing but supposedly invisible researcher. As Ardra Cole and Gary Knowles point out in this fresh introduction to conducting life history research, the process is now one of mutuality, empathy, sensitivity and caring. The authors carry the

novice researcher through the steps of conducting life history research--from conceptualizing the project to the various means of presenting results--with an eye toward understanding the complex relationship between participant and researcher and how that shapes the project. In addition to examples from their own research, Cole and Knowles bring in the work of a dozen novice researchers who explain the challenges they faced in developing their own life history projects in a wide variety of settings. Well written, interesting, and pedagogically sound, *Lives in Context* is the ideal text for teaching life history research to students and an important reference for the bookshelf of all qualitative researchers.

Noting that Israel's earliest responses to earth-shaking changes were cast in the powerfully expressive language of poetry, Hugh R. Page Jr.

Online Library Bone Black Memories Of Hood Bell Hooks

argues that the careful collection and preservation of these traditions was an act of resistance, a communal no to the forces of despair and a yes to the creative power of the Spirit. Further, Page argues, the power of these poems to craft and shape a future for a people who had suffered acute displacement and marginalization offers a rich spiritual repertoire for Africana peoples today, and for all who find themselves perennially outside the social or political mainstream.

A collection of poems centered around life in Appalachia addresses topics ranging from the marginalization of the region's people to the environmental degradation it has endured throughout history.

Movies matter — that is the message of Reel to Real, bell hooks' classic collection of essays on film. They matter on a personal level,

Online Library Bone Black Memories Of Hood Bell Hooks

providing us with unforgettable moments, even life-changing experiences and they can confront us, too, with the most profound social issues of race, sex and class. Here bell hooks – one of America ' s most celebrated and thrilling cultural critics – talks back to films that have moved and provoked her, from Quentin Tarantino ' s Pulp Fiction to the work of Spike Lee. Including also her conversations with master filmmakers such as Charles Burnett and Julie Dash, Reel to Real is a must read for anyone who believes that movies are worth arguing about.

In Homegrown, cultural critics bell hooks and Amalia Mesa-Bains reflect on the innate solidarity between Black and Latino culture. Riffing on everything from home and family to multiculturalism and the mass media, hooks and Mesa-Bains invite readers to re-examine

Online Library Bone Black Memories Of Hood Bell Hooks

and confront the polarizing mainstream discourse about Black-Latino relationships that is too often negative in its emphasis on political splits between people of color. A work of activism through dialogue, *Homegrown* is a declaration of solidarity that rings true even ten years after its first publication. This new edition includes a new afterword, in which Mesa-Bains reflects on the changes, conflicts, and criticisms of the last decade.
