Help Your Kids with Math is designed to reduce the stress of studying math for both children and adults. Studying math is often a source of great anxiety for children and teenagers. It also proves troublesome for parents, as many are reminded of their own struggles with the subject and feel lost when trying to tackle it again years later in an effort to aid their offspring.

**Help Your Kids with Math by Carol Vorderman**

Maths tip 1: Use negative numbers in context with your Year 5 child The easiest way to make sense of negative numbers is to watch them in action, and one of the only practical ways you can do this is with temperature. One idea you can use is to pop an ice cube in a small amount of water and check the temperature together every twenty minutes.
