Fuels, Lubricants, Coolants, and Filters easily helps a reader to understand these wonderful liquids and filters better. By starting with the basics, it builds your knowledge step-by-step in a very structured manner.

Models L175, L210, L225, L225DT, L260; Models B5100D, B5100E, B6100D, B6100E, B6100HST-D, B6100HST-E, B7100D, B7100HST-D, B7100HST-E; Models L185, L235, L245, L275, L285, L295, L305, L345, L355

Starts with the basic human factors that affect farm equipment safety. Tells how to recognize potential hazards & understand what causes them. Illustrates major points using colorful diagrams & photos. Broadens the concept of machine safety by using a positive, in-depth approach. Widely useful for teaching safe machinery operation to youth & adult readers. This book was, to our knowledge, the first major agricultural machinery safety text ever published. CONTENTS: Agriculture-Hazardous Occupation, Be Your Own Safety Director, Man & His Machines, Be Prepared for the Unexpected, Communication of Safety Messages, Human Factors in Safety, Common Machine Hazards, Protective Equipment, Machine Service Hazards, Safe Use of Shop Tools, Safe Tractor Operation, Tractor Safety Checklist, Safe Tillage & Planting, Safe Use of Crop Chemicals, Safe Hay & Forage Operations, Grain-Harvesting Safety, Cotton- & Vegetable-Harvesting Safety, Safe Materials Handling & Feeding, Safety with Farm Accessories, OSHA & Hazardous Occupation Laws.

Compact Utility Tractors, or CUTs, are cute little cutters! As farming became more refined so did the needs of tractors. The answer was a smaller, more maneuverable and fuel-efficient tractor with a variety of implements and attachments. With this focus on special needs, attachments became available such as plows, disc harrows, mower decks, cultivators, spreaders, snowblowers, and more. They have become a necessary utility for farmers, orchards, small construction jobs, and landscaping/maintenance for estates, parks and golf courses. At the forefront of this evolution was the Farmall Cub and John Deere Model L. Then came the Japanese invasion; a new kind of tractor by companies such as Yanmar and Kubota. These four-wheel drive machines were rugged and tough and used a variety of hydraulically powered attachments. American companies like John Deere, International Harvester, and Massey Ferguson built their own their own four-wheel versions. Today ' s compact tractors, such as the Kubota BX series, Massey Ferguson ' s GC series, and the John Deere 3000, offer an even larger selection of implements for special purposes.
