Seminar paper from the year 2015 in the subject Didactics - English - Literature, Works, grade: 1,7, University of Potsdam, language: English, abstract: Virginia Woolf is one of the most famous modernist female British writers of the 20th century. Throughout the years of being an author, she develops an experimental writing style, which is already noticeable in "Mrs Dalloway". This book was published in 1925 by the Hogarth Press, which she founded, together with her husband Leonard Sidney Woolf. "Mrs Dalloway" is based on the two short stories "Mrs Dalloway in Bond Street" and "The Prime Minister" and depicts one day in the life of the fictional protagonists Clarissa Dalloway and Septimus Warren Smith, who do not know each other and never actually meet during the day either. Throughout the description of this day, the presence intertwines with the past, with the usage of flashbacks to illustrate memories.

Michael Cunningham brings together his Pulitzer Prize-winning novel with the masterpiece that inspired it, Virginia Woolf's Mrs. Dalloway. In *The Hours*, the acclaimed author Michael Cunningham draws inventively on the life and work of Virginia Woolf and the story of her novel, Mrs. Dalloway, to tell the story of a group of contemporary characters struggling with the conflicting claims of love and inheritance, hope and despair. In this edition, Cunningham brings his own Pulitzer Prize-winning novel together with Woolf's masterpiece, which has long been hailed as a groundbreaking work of literary fiction and one of the finest novels written in English. The two novels, published side by side with a new introduction by Cunningham, display the extent of their affinity, and each illuminates new facets of the other in this joint volume. In his introduction, Cunningham re-creates the wonderment of his first encounter with Mrs. Dalloway at fifteen—as he writes, "I was lost. I was gone. I never recovered." With this edition, Cunningham allows us to disappear into the world of Woolf and into his own brilliant mind.

The *Common Reader* is a collection of essays by Virginia Woolf, published in two series, the first in 1925 and the second in 1932. The title indicates Woolf's intention that her essays be read by the educated but non-scholarly "common reader," who examines books for personal enjoyment. Woolf outlines her literary philosophy in the introductory essay to the first series, "The Common Reader," and in the concluding essay to the second series, "How Should One Read a Book?" The first series includes essays on Geoffrey Chaucer, Michel de Montaigne, Jane Austen, George Eliot, and Joseph Conrad, as well as discussions of the Greek language and the modern essay. The second series features essays on John Donne, Daniel Defoe, Dorothy Osborne, Mary Wollstonecraft, and Thomas Hardy, among others. Adeline Virginia Woolf (1882–1941) was an English writer who is considered one of the foremost modernists of the twentieth century and a pioneer in the use of stream of consciousness as a narrative device.

In October 1928 Virginia Woolf was asked to deliver speeches at Newnham and Girton Colleges on the subject of 'Women and Fiction'; she spoke about her conviction that 'a woman must have money and a room of her own if she is to write fiction'. The following year, the two speeches were published as *A Room of One's Own*, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance – women and learning, writing and poverty – which helped to establish much of feminist thought on the importance of education and money for women's independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence – a call which sent ripples well into the next century. 'Brilliant interweaving of personal experience, imaginative musing and political clarity' — Kate Mosse, *The Guardian* 'Probably the most influential piece of non-fictional writing by a woman in this century.' — Hermione Lee, *The Financial Times*

Seminar paper from the year 2018 in the subject English Language and Literature Studies - Literature, grade: 3,0, RWTH Aachen University, language: English, abstract: This term paper features brief definitions of different mental illnesses and investigates what role those may play in Virginia Woolf's modernist novel "Mrs Dalloway".

In Woolf's last novel, the action takes place on one summer's day at a country house in the heart of England, where the villagers are presenting their annual pageant. A lyrical, moving valedictory.

In Jacob's Room, the novel preceding Mrs. Dalloway, Virginia Woolf works with many of the same themes she later expands upon in Mrs. Dalloway. To Mrs. Dalloway, she added the theme of insanity. As Woolf stated, "I adumbrate here a study of insanity and suicide; the world seen by the sane and the insane side by side." However, even the theme that would lead Woolf to create a double for Clarissa Dalloway can be viewed as a progression of other similar ideas cultivated in Jacob's Room. Woolf's next novel, then, was a natural development from Jacob's Room, as well as an expansion of the short stories she wrote before deciding to make Mrs. Dalloway into a full novel. The Dalloways had been introduced in the novel, The Voyage Out, but Woolf presented the couple in a harsher light than she did in later years. Richard is domineering and pompous. Clarissa is dependent and superficial. Some of these qualities remain in the characters of Mrs. Dalloway but the two generally appear much more reasonable and likeable. Clarissa was modeled after a friend of Woolf's named Kitty Maxse, whom Woolf thought to be a superficial socialite. Though she wanted to comment upon the displeasing social system, Woolf found it difficult at times to respond to a character like Clarissa. She discovered a greater amount of depth to the character of Clarissa Dalloway in a series of short stories, the first of which was titled, "Mrs. Dalloway in Bond Street," published in 1923. The story would serve as an experimental first chapter to Mrs. Dalloway. A great number of similar short stories followed and soon the novel became inevitable. As critic Hermione Lee details, "On 14 October 1922 [Woolf] recorded that 'Mrs. Dalloway has branched into a book, ' but it was sometime before [Woolf] could find the necessary balance between 'design and substance.'"

Woolf's acclaimed first novel, a moving depiction of the thrills and confusion of youth, traces a shipboard journey to South America in a captivating exploration of a young woman's growing self-awareness.
