During the late Victorian era, the name of Mrs. A. B. Marshall could be found fixed over the door of her large cooking school and employment agency on Mortimer Street, in culinary magazines, on cooking utensils, cookbooks, food products, supplies, and cross-country lectures. By the time of her death in 1905, she had sunk into obscurity and the destruction of her papers and ephemera in a fire in the 1950s further buried the legacy of a woman who, at one time, was considered as indispensable ...

Mrs Marshall designed and marketed this remarkable ice cream freezer, which she claimed was capable of freezing a pint of ice cream mixture in five minutes. This is much faster than any modern electric ice cream machine designed for domestic use. Ivan has put Mrs Marshall's claims to the test and has found that she was telling the truth.

The recipe for Apple Pandowdy comes from Mrs. Winslow's Domestic Receipt Book for 1869 and although the origin of the word 'pandowdy' isn't clear, some historians believe it came about because of the dish's appearance as being a bit boring, or 'dowdy', and having been baked in a pan.

Girls learn about "femininity" from childhood onwards, first through their relationships in the family, and later from their teachers and peers. Using sources which vary from diaries to Inspector's reports, this book studies the socialization of middle- and working-class girls in late Victorian and early-Edwardian England. It traces the ways in which schooling at all social levels at this time tended to reinforce lessons in the sexual division of labour and patterns of authority between men and women, which girls had already learned at home. Considering the social anxieties that helped to shape the curriculum offered to working-class girls through the period 1870-1920, the book goes on to focus on the emergence of a social psychology of adolescent girlhood in the early-twentieth century and finally, examines the relationship between feminism and girls' education.

The effect produced upon the general mind by the appearance of Charlotte Brontë in literature, and afterwards by the record of her life when that was over, is one which it is nowadays somewhat difficult to understand. Had the age been deficient in the art of fiction, or had it followed any long level of mediocrity in that art, we could have comprehended this more easily. But Charlotte Brontë appeared in the full flush of a period more richly endowed than any other we know of in that special branch of literature, so richly endowed, indeed, that the novel had taken quite fictitious importance, and the names of Dickens and Thackeray ranked almost higher than those of any living writers except perhaps Tennyson, then young and on his promotion too. Anthony Trollope and Charles Reade who, though in their day extremely popular, have never had justice from a public which now seems almost to have forgotten them, formed a powerful second rank to these two great names. It is a great addition to the value of the distinction gained by the new comer that it was acquired in an age so rich in the qualities of the imagination. But this only increases the wonder of a triumph which had no artificial means to heighten it, nothing but genius on the part of a writer possessing little experience or knowledge of the world, and no sort of social training or adventitious aid. The genius was indeed unmistakable, and possessed in a very high degree the power of expressing itself in the most vivid and actual pictures of life. But the life of which it had command was seldom attractive, often narrow, local, and of a kind which meant keen personal satire more than any broader view of human existence. A group of commonplace clergymen, intense against their little parochial background as only the most real art of portraiture, intensified by individual scorn and dislike, could have made them: the circle of limited interests, small emulations, keen little spites and rancours, filling the atmosphere of a great boarding school, the Brussels Pensionnat des filles—these were the two spheres chiefly portrayed: but portrayed with an absolute untempered force which knew neither charity, softness, nor even impartiality, but burned upon the paper and made everything round dim in the contrast. I imagine it was this extraordinary naked force which was the great cause of a success, never perhaps like the numerical successes in literature of the present day, when edition follows edition, and thousand thousand, of the books which are the favourites of the public: but one which has lived and lasted through nearly half a century, and is even now potent enough to carry on a little literature of its own, book after book following each other not so much to justify as to reproclaim and echo to all the winds the fame originally won. No one else of the century, I think, has called forth this persevering and lasting homage.

It started with the Storms. The world got too hot too fast. The weather wrecked Hell on man's shiny, pretty civilization. With the heat and wet came bugs, with bugs came new diseases, and man's numbers and sanity dwindled. The survivors reformed governments like petty shadows of the world's old empires. They sought answers and justifications, they sought redemption for what they perceived as man's holy smiting. Welcome to the Arizona Reformed Theocracy, otherwise called The Zona. Here the Church rules with power absolute. The laws are simple, all sin is punished swiftly. Preachers enforce the Church's words like old West lawmen. But what happens when a Preacher refuses to kill? What happens when men of honor take a stand against their rulers?

The Crucible is a 1953 play by American playwright Arthur Miller. It is a dramatized and partially fictionalized story of the Salem witch trials that took place in the Massachusetts Bay Colony during 1692/93. Miller wrote the play as an allegory for McCarthyism, when the United States government ostracized people for being communists. The play was first performed at the Martin Beck Theatre on Broadway on January 22, 1953, starring E. G. Marshall, Beatrice Straight and Madeleine Sherwood. Miller felt that this production was too stylized and cold and the reviews for it were largely hostile (although The New York Times noted "a powerful play [in a driving performance]"). Nonetheless, the production won the 1953 Tony Award for Best Play - In Salem Massachusetts, a group of girls are caught by the puritan Minister Reverend Parris dancing naked in the forest. The Reverend's daughter collapses immediately on sighting her father knowing well the consequences of their sin and the severe punishment that may be met on them. They however allege that they have been bewitched by the witches. - Due to their claims, a special court is set up to investigate this alleged claim by the girls prompting judges to come all the way from Boston to assist the residence of Salem - As court proceedings are going on, the supposedly afflicted girls indict individuals in the town of witchcraft, over and over again choosing victims who they or their families loathe. The special courts discovers over a hundred of Salem citizens are witches...The court's attempt to preserve Puritan morality by arresting and putting to death accused witches ironically leads to the removal of the most righteous people in the society.
