It includes 200 exercises covering classical physics and optics. Features. Features. 218 Ranking Task Exercises, covering all of Classical Physics —Gives students ample opportunity to work these unique exercises.

Ranking Task Exercises in Physics: Student Edition

The idea of the ranking task is to have a student compare a number of physically similar systems that are allowed to vary in only one or two ways. The student must rank the systems (usually from greatest to least) on the basis of one of the system's physical variables (i.e. -velocity, acceleration, electric field strength, current, etc.).

Activity outline. Each exercise consists of four elements: a place to record the ranking of each variation; a description of the physical situation, including any constraints and the basis for ranking different arrangements; a set of figures showing the different arrangements of the situation to be compared; a place to explain the reason for each ranking choice.
